DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to "storage device", classified in class 386, subclass 125.
- II. Claim 16-75, drawn to "metadata data", classified in class 725, subclass 136.

The inventions are distinct, each from the other because of the following reasons:

Group I and II are related as subcombinations disclosed as usable together in single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

- **Group I** has separate utility such as storing only portions of content on a storage device.
- **Group II** has metadata that provides contact via a network that provides content to the system such as television program information.
- **See MPEP § 806.05(d).**

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
